Profile

Hello, my name is Justin and I am an entrepreneur, developer and designer. I have a passion to create amazing experiences and solve problems in everyday life. I have a BS in Computer Science from the University of Texas at Dallas, have 4 years of industry development experience, own and operate my own app development company and have two of my own start ups.

Experience

Software Engineer, TripAdvisor; Needham, MA — 6/16 - Present

Implementing new features and products in the iOS application, Android application, desktop and mobile websites. Also working with the testing team to implement new methods of automated UI testing across all platforms.

iOS Development Intern, Capital One; San Francisco, CA — 6/15 - 8/15

Held a position as a lead iOS developer for a small innovation team within Capital One Labs during a three month internship. Had to manage my own time, project planning, design and testing for the project. Delivered a completely native iOS, customer ready application in two months. After completion of default functionality I implemented features such as Touch ID integration and Apple Watch connectivity.

Founder & CEO, Fridgely — 6/15 - Present

Fridgely is an iOS application that tells you when your food is going to expire so that you can use it before it does. Fridgely sends users an intelligent notification reminding them to use their food and shows them recipes based on the food they already have.

Founder & CEO, University Eats — 5/14 - Present

University Eats is an iOS and web application that shows students when and where to eat on their college campus and which restaurants have student discounts.

Founder & CEO, Jump Space Apps; Richardson, TX — 7/13 - Present

President and Owner of Jump Space Apps. An app development company focused on creating innovative and user-friendly products. Jump Space Apps currently has four employees and completes an average of ten client applications each year.

iOS Developer, Bottle Rocket Apps; Addison, TX — 5/13 - 10/15

Transitioned from an intern to a part time employee in the Summer of 2013. This role includes implementing new features, designs, supporting existing applications and working in teams of size 5-10. Projects worked on include NBC, Food Network, Syfy, BET, Bravo and Hallmark

Education

University of Texas at Dallas — BS in Computer Science — 2016
